

Discover the bounty growing in your own back yard . . .

Virginia City is famous for silver mining, throngs of tourists - and the Outhouse Races. Few people take time to appreciate the diversity of plants that cover the Comstock. This is your chance! We will tromp the backstreets and open spaces in and around Virginia City, exploring everything from native plants typical of the region to the massive influx of introduced plants - weeds, etc. We will walk about a mile and a half over mostly easy terrain with some hills. The days activity will end with a short tour of the historic and beautifully restored Saint Mary's Art Center .
